7/19/68

Dear Mr. Brown,

Many thanks for your letter of 7/16 and the interesting enclosures. I agree with you on the possibilit Exhibit 111 is what you say and am glad you are going to look into it. You should expect to see only a Xeroxed copy of the book, however. If you ask for the original, please keep a careful record on the reaction, etc. I wonder if you'll get to see it.

I plan to read the enclosure on codes today.

I have written several with whom I work to ask them if there is anything along this line they think worth looking into. If you phone me when you are in Washington, I can let you know. I can also give you what records of arrests I have, if you'd like.

Again, thanks, and happy hunting!

Sincerely,

Harold Weisberg

Any way I can help?
